VACCINATIONS & NEGATIVE COVID TESTS: Many of you have asked us if we will require our clients to be fully vaccinated in order to travel with us. While we do not plan on requiring it as a general policy, we are seeing strong indications from many of the destinations we tour that they will be requiring a negative covid test or proof of vaccination from Covid. Please be aware that if there is an option to choose, we will have to require proof of vaccination for that specific tour in order for clients to join the tour. This is because the timing and coordination of getting a negative covid test, particularly when you’re already on the road for a motor coach tour or an international tour is extremely difficult to execute with a large group of people. You are welcome to contact our office with any questions you may have and we will do our best to give advance notice should one of our tours require proof of vaccination.
